I am a Full-Stack Developer with over a year of experience in software development. Currently, I have experience in JavaScript, Java, PHP, and Python, as well as solid knowledge in testing, both unit and integration (JUnit, PhpUnit, Cypress). With a strong business education from my Bachelor's degrees in Marketing and Business Administration, combined with my sales experience, I have a much more critical point of view. I have great problem-solving and teamwork skills. I am seeking for new challenges in innovative companies that will allow me to continue growing and developing, and contribute to the growth and success of the organization.
